

Hartsfield Business Bank

Product Fact Sheet

Product Name: Hartsfield Momentum Business Suite

Tagline: *Everything your business needs to move. Nothing it doesn't.*

What It Is Hartsfield Momentum is a fully integrated small business banking suite — not just a savings account, not just a checking account, but a connected financial operating system built specifically for Atlanta's small business owners. It combines high-yield savings, business checking, cash flow intelligence, invoicing, and expense management into a single digital-first platform backed by Hartsfield's 25 years of local banking expertise.

This is Hartsfield's first fully digital product — available entirely online, with no branch visit required to open or manage — while maintaining access to all nine metro Atlanta locations and Hartsfield's human support team.

What's Included

Momentum Business Checking

- No monthly maintenance fees
- Unlimited fee-free transactions
- Free ACH transfers and incoming wires
- Physical and virtual debit cards with spend controls
- Mobile check deposit
- Up to \$5M FDIC coverage through Hartsfield's IntraFi sweep network

Momentum Business Savings

- 3.75% APY (variable, see current rate disclosure)
- No minimum balance to open
- No monthly fees
- Up to 6 fee-free withdrawals per month
- Automatic savings rules (set percentage of deposits to sweep to savings automatically)

Momentum Intelligence Dashboard Hartsfield's proprietary cash flow tool — the first of its kind built by a Georgia-chartered community bank — gives business owners a real-time picture of where their money is going, where it's coming from, and what the next 90 days look like based on their actual transaction history.

Features include:

- 90-day cash flow forecast based on real account data

Hartsfield Business Bank

- Automatic categorization of income and expenses
- Invoice creation and tracking (with payment status alerts)
- Payroll scheduling integration (QuickBooks, Gusto, ADP)
- Tax reserve calculator — automatically sets aside a configurable percentage of revenue for quarterly tax obligations
- Anomaly alerts: flags unusual spending patterns or incoming payment delays in real time

Momentum Connect Direct integration with the tools Atlanta's small business owners already use:

- QuickBooks Online and Xero
- Shopify, Square, and Stripe
- Gusto and ADP payroll
- HubSpot CRM

Momentum Human Layer The feature no national digital bank can replicate: every Momentum account includes access to a named Hartsfield business banking advisor — a real person, based in Atlanta, available by phone, video, or in-branch. Not a bot. Not a ticketing system. A person who picks up.

Who It's Built For

- Small business owners with 1-50 employees across any industry
- Startups and early-stage companies that need banking infrastructure without the overhead of a traditional business account
- Existing Hartsfield customers ready to consolidate their banking into one integrated platform
- Business owners currently using Mercury, Bluevine, or Relay who want the digital experience with the backing of a 25-year local institution

Pricing

- Momentum Starter: \$0/month (Checking + Savings + Intelligence Dashboard)
- Momentum Pro: \$49/month (Everything in Starter + Momentum Connect integrations + dedicated advisor access)
- Momentum Enterprise: Custom pricing for businesses with \$1M+ in annual revenue

FDIC and Regulatory Disclosures Hartsfield Business Bank is a Member FDIC. Deposits are insured up to \$250,000 per depositor under standard FDIC coverage. Extended coverage up to \$5M is available through the IntraFi network sweep program — terms and conditions apply. APY rates are variable and subject to change without notice. Current rates are published at hartsfieldbank.com/rates and updated on the first business day of each month. Momentum is not an investment product. Funds held in Momentum accounts are not securities and are not insured by SIPC.

Hartsfield Business Bank

The Innovation Angle No Georgia-chartered community bank has built a proprietary cash flow intelligence tool. The Momentum Intelligence Dashboard is Hartsfield's answer to the question every small business owner in Atlanta has been asking their bank for years: *"Can you just tell me if I'm going to be okay next quarter?"*

National banks have version of this. Fintechs like Mercury have versions of this. But none of them were built by a bank that has been underwriting Atlanta businesses for 25 years — which means Hartsfield's model is trained on the actual patterns of this market: the seasonal swings of Atlanta's restaurant industry, the payment cycles of Georgia's construction sector, the cash flow rhythms of the creative and logistics businesses that make this city run.

That's not a feature. That's 25 years of institutional knowledge embedded in a product. And it's something Bank of America cannot buy.
